Quickstart Guide

Introduction- Power & Input Modes
Using the ITB382 Sound Bar

Status	Indicator
Power Off	No Light
Optical Mode	Amber Light
Aux In Mode	White light
Line In Mode	White Light
Radio Mode	Green Light
Bluetooth Ready	Flashing Blue Light
Bluetooth Connected	Blue Light

Connectivity- Bluetooth
Connecting your sound bar wirelessly using Bluetooth

1. Power on the unit by pressing the **Power** button.

2. Press the **Source** button repeatedly to enter Bluetooth mode, indicated by a blue light.

3. Press the **Pairing** button on the side of the unit. The **Pairing Indicator** will flash blue quickly.

   When pairing, remain within 3 feet of the unit.

4. Using the native controls on your Bluetooth device, select the "ITB382" in your Bluetooth settings to pair.

   If your device requests a password, enter the default password " 0 0 0 0 ".

   Refer to the user's manual for your specific device for instructions on pairing and connecting Bluetooth devices.

5. When successfully paired and connected, a beep will issue from the unit and the **Pairing Indicator** will display a solid blue light.

   After initial pairing, the unit will stay paired unless unpaired manually by the user or erased due to a reset of the device.

   If your device should become unpaired or you find it is unable to connect, repeat the above steps.

   Note: Holding the Pair button for more than 3 seconds will erase all stored Bluetooth devices from the sound bar's memory. After the devices have been erased, to re-pair with the unit you must also forget the ITB382 on your Bluetooth device and then follow the steps above.

Quickstart Guide

Usability- The Learn feature
Teach your sound bar to recognize commands from a single remote

What is the learning feature?
The learning feature captures remote commands from your television remote, and teaches your bar speaker to operate when these commands are pressed. Power, volume and mute are a few examples of commands that the bar speaker can learn.
Why use the learning feature?
Teaching the bar speaker remote commands will reduce the number of remotes needed, save time searching for remote codes, and improve the ease of operation.

1. With the power Off, press the **Learn** button on the unit.

2. Press the button you desire to be learned on the included remote.
   For example: Volume+

   IT382B Remote

3. Press the corresponding button on your remote.

   Sample Remote

4. Press the **Learn** button on the unit.

5. The programmed button on your remote will now be able to control your sound bar.
